*Challenges do not to limit you, they help you discover who you are.*

# OWU's No Limits Certification Challenge

The No Limits Certification Challenge (NLCC) is a new program created by OWU to give our members the opportunity to advance in outdoor courses. Members acquire education and hands on skill in designated outdoor programs.

The designated outdoor programs are selected by OWU leadership, professional volunteers and certified instructors to create a challenge course encompassing the essential elements of becoming a multifaceted outdoor woman.

Excelling in NLCC, builds a strong educational foundation for our members in various outdoor disciplines. Through the curriculum and hands on experience created by OWU, members will be educated consumers and responsible outdoor enthusiasts.

## Level One

Level One of NLCC is the basic certification for a member to complete. Completion of the Level One certification is attendance and participation in three consecutive Southern Classics hosted by OWU or one of its chapters.

## Level Two

Level Two of NLCC is the intermediate certification for a member to complete. Completion of the Level Two certification is attendance and participation in three consecutive Southern Classics hosted by OWU or one of its chapters. The second phrase of Level Two is attendance and participation in three OWU sanctioned events\* held throughout the year for three consecutive years.

## Level Three

Level Three of NLCC is the master certification for a member to complete. Completion of the Level Three certification is attendance and participation in three consecutive Southern Classics hosted by OWU or one of its chapters. The second phrase of Level Three is attendance and

participation in three OWU sanctioned events\* held throughout the year for three consecutive years. The third phrase of Level Three is promotion of the organization. OWU is a firm believer in pay it forward and the importance of making a difference. The final phrase of Level

Three exemplifies these two important objectives. Completion of this phrase includes publishing articles, pictures, videos, etc to media outlets in all capacities. (Social, print, television, blogs) Additionally, members are required to work with OWU leadership, volunteers, sponsors, and instructors in various capacities to increase the outdoor market for women, encourage participation in events, and purchase of products. By telling their story, members create a bridge for new members to enter into OWU and ultimately the outdoor world.
